The Astorian guarantees to its advertisers the largest circulation of any newspaper published on the Columbia River.

THE ASTORIAN PUBLISHING CO., P. M. MAHER, Manager.

The management of the Astorian will today pass into the hands of P. M. Maher, a newspaper man of wide experience, who, with the assistance of a capable staff, will give to Astoria a newspaper that will command the attention not alone of Oregon, but of the entire country.

A mysterious case is being hunted up at Seattle. A marine engineer by name of L. A. Booth, got into a saloon with a well-filled pocketbook. At first his death was put down to heart disease, but as suspicious circumstances came to the notice of the police, an autopsy was made which showed that the engineer was murdered by being beaten over the head by some soft weighted instrument. Suspected people are under arrest and evidence points to a pretty clear case of robbery and murder.

There probably never was a sportsman who has so fairly and deservedly won the hearts of the American people as Sir Thomas Lipton. The announcement that he will send another challenge to New York means that, in the interests of genuine friendly rivalry, the world will watch and learn something more about boat building. Sir Thomas will get a warm welcome on this side and should be successful this time American yachtsmen will hand the envied cup to him more readily, and with better heart, than to any other man outside of our own country.

OTHER CITIES.

We must admit that Great Britain has outdone us in the matter of generosity to the conquered, especially as they are of another race. The Boer demands must stand unique in history for their magnificent coolness, or utter failure to grasp the situation. If the conqueror in future is to compensate the conquered for being beaten, it will certainly be a great revolution in human affairs and have a strong tendency to end all war—a most desirable consummation, but not likely to eventuate along those lines.—Standard Union.

It is now conceded that President Roosevelt will be renominated by the Republicans in 1904. Recognizing the overwhelming tide in his favor, the Republicans of New York state have decided to endorse President Roosevelt, and enough states have done likewise to make his nomination sure. 'Tis well. Roosevelt is the man the people want, and J. P. Morgan, Jim Hill and other trust magnates, who have declared against him because of his position against trusts, might just as well give in gracefully as to fight.—Albany Herald.

"Is your mamma cross? Mine is awful cross! Does your mamma say 'Hush!' when you laugh or make a little bit of a noise? My mamma does. She has nerves, papa says."

The mother who overheard this account of her little heart-broken child to think of the shadow cast by her misery on those she loved. Yet her condition is real. Her nerves are strained to the point of rupture. Lack of appetite and loss of sleep increase her weakness.

Such a condition may, in general be traced to disease of the delicate womanly organism, a cure for which is found in the use of Dr. Pierce's Favorite Prescription. It establishes regularity, heals inflammation and ulceration and cures female weakness. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep.

"I had been a constant sufferer from uterine disease for five years," writes Mrs. J. A. Stearns of Yankee Dam, Clay Co., West Virginia, "and for six months previous to taking your medicine I was not out of my room. Could not walk or stand, as there was such pain and drawing in left side and bearing-down weight in region of uterus, accompanied with vertigo. I suffered constantly with headache, pain in back, shoulders, arms and chest; and could not sleep nor lie down. The I had taken have bottles of the medicine the periods were regulated. I was not so nervous, could sleep well, and the pain in side and bearing-down had vanished. My health is better at this time than it has been in five years."

Dr. Pierce's Pellets stimulate the liver.
